

## Tux paints parts

Tux Paint's normal interface is split into five ~~seven~~ sections:

- ① Toolbox, containing the various basic tools (see below) and application controls (undo, save, new, print)
- ② ~~2~~ Curves, where the images are drawn and edited
- ③ Colour ~~part~~ palette, where colours can be chosen (when applicable to the current tool)
- ④ Setecore, providing various selectable objects (e.g. brush, fonts or sub-tool depending on the current tool)
- ⑤ Information area, ~~near~~ where instructions, tips and encouragement are provided
