

# 4

## Comparison of Numbers

### 4.1 Equal and Unequal

There is one extra apple in basket A.

So, we say that there are unequal number of apples in the two baskets.

Neha took 1 apple from basket A.

Now, there are equal number of apples in both the baskets. The symbol ( $=$ ) means that the numbers on its either side are equal. e.g.  $4 = 4$

### Exercise

Put the sign ' $=$ ' or ' $\neq$ '.

- |     |    |        |    |     |    |        |    |     |    |        |    |
|-----|----|--------|----|-----|----|--------|----|-----|----|--------|----|
| (a) | 12 | $\neq$ | 17 | (c) | 57 | $\neq$ | 51 | (e) | 64 | $\neq$ | 44 |
| (b) | 33 | $=$    | 33 | (d) | 70 | $\neq$ | 80 | (f) | 92 | $=$    | 92 |
