You are Saket. Your friend Subhash has not been performing well in his studies. You tried your best to know the reasons of his poor performance. One day he tells you about the poor financial condition of the family. Now he is making a plan to take up a job in a factory instead of continuing his studies. Write him a letter, persuading him to carry on with his studies.

Dear Subash

In this letter I want to tell about how you can do your good to get a good performance. If you have a good reaction on learning fact and give time in studies and less in playing - give equal time to your subjects, I am requesting you to rethink and you don't work in a factory instead of continuing your studies. There are many scholarship facility available in internet in schools and you can take up private coaching, learning and earning money by doing many things in internet like coding, making apps, websites etc. There are many things to do and earn money. You practice your studies and get good marks in your exams.
