

Q. What are the advantages and disadvantages of friction?

Ans. The advantages of friction are here:

- ~~Here~~ Friction helps us to walk on ground.
- Friction helps us when we are writing.
- It also helps us in ~~friction~~ while striking a matchstick to generate fire while ~~striking~~ striking a matchstick.

~~And~~ And here are some ~~advantages~~ disadvantages:

- It produces heat which may damage machines.
- Friction produces wear and tear on the contacting ~~body~~ surfaces. This produces the life of tyres and shoe soles.
- A lot of energy is wasted in overcoming the friction before an object starts moving.
