

## The BLACK AEROPLANE

Thinking about the text

(1) I'll take the risk "what is the risk?  
Why does the narrator take it?

Ans → A huge storm was brewing up and the narrator was keen to reach his home to spend his holiday. So he decided to fly through the storm as he did not want to miss the chance to meet his family at breakfast. Thus, he ~~took~~ took the risk even when the visibility was almost zero in the storm.

(2) Describe the narrator's experience as he flew the aeroplane into the storm.

Ans → As the pilot entered the storm, his plane started jumping and twisting, he could not see anything outside, the plane as it was black. When he looked at compass and

other instruments, they had ~~to~~ stopped ~~to~~ Function due to storm. It was a terrible and fearsome experience for him. The fuel tank was almost empty and he could not fly more than ten minutes.

Then he saw another black aeroplane by his circle and the pilot signalled him to ~~to~~ follow. It was a surprise for the ~~next~~ narrator as the other black plane was having to light. He followed him without any choice and ~~to~~ landed safely on the runway.

(3) ~~Q~~ Why does the narrator say 'I landed and was not sorry to away from the old ~~what?~~ Dakota?'

Ans. → The narrator describes the flying the ~~old~~ old Dakota was not so sophisticated and he had a very horrific experience flying it. So he was happy rather than being ~~so~~ sorry after coming out ~~of~~ of the plane and took a sigh of relief when it landed safely.

(4) What made the Woman in the Control Centre look at the narrator Strangely?

Ans. → The woman in the control center looked at the narrator Strangely as the narrator asked him about the black aeroplane and she saw no one except the narrator's in the sky during the storm. Even the radar showed only the narrator's plane that night in the sky.

(5) Who do you think helped the narrator to reach safely? Discuss this among yourselves and give reasons for your answer.

Ans. → It is very difficult to say about the unknown pilot who helped the narrator as no other plane was seen in the radar. But probably it was the narrator himself that helped him to overcome the fear in the storm. In that fearsome situation, he might have been hallucinating. He himself was a good pilot and brave himself land safely.
