1. Some people conclude that politics and social divisions should not be allowed to mix. support this idea with argument?

Politics and the social divisions should not be mixed with each other.

Because;

1) Our country follows a democratic political ecosystem. which means political powers and rights are available for everyone without any divisions in terms of religion, race, caste etc.

2) If we involve social divisions in the political system, we have to redesign the whole political ecosystem because our current political ecosystem is not made for allowing any kind of social divisions.
