'What Freedom means to me'

→ Freedom, according to me is the opportunity we get to fulfill our dreams without anyone interfering with us.

→ Without freedom, nothing is possible as we do not have any rights and we have to follow only orders.

→ Freedom, also known as independence is very important. In our country, we have freedom of almost everything like freedom of speech, freedom of religion, freedom of belief.

But too much of freedom is bad as well because if people will think they have the right to do everything, they may start riots, demand on different wants.
