

HW  
10.11.21

12) The average of 9 numbers =  $9 \times 21 = 189$

The average of last 3 numbers =  $3 \times 17 = 51$

Total sum

~~Average~~ of 12 numbers =  $189 + 51 = 240$

Average of 12 numbers =  $\frac{240}{12} = 20$
