① → The students were talking as Miss Parker entered the class-room. Then in a loud voice she said "good morning" and glanced quickly around the room. All the children watched her intently to find out what sort of a person she was. "I suppose you want to know my name" she said. But before she could tell them, someone yelled out "You are Miss-Parker".

② Spiders are one of the most fascinating of creatures. Several hundred species are found lost in India. They are quick to get away when we come too close to them. They often don't sting. Nor is their bite severe. In fact some eat bites

hurt more than a spider bite. Many species of spiders inhabit our environment. The females of only two species are dangerous. In fact many of the deadly looking ones do not harm us.
