

Cell

SAQ

- ① Zacharias Janssen invented the first microscope.
- ② Robert Hooke coined the term cell.
- ③ A cell consists of three parts: the cell membrane, the nucleus and between these two parts, the cytoplasm.

LAQ

- ① Robert Hooke coined the ^{term} ~~structure~~ cell. He used three lenses in his microscope. While observing, Hooke saw ^{tiny} ~~that~~ box-like cavities, which is illustrated and described as cells.
