HOME ASSIGNMENT

Write a paragraph on Shantaram's meeting with lion.

Shantaram asked his predecessor at the station about the barbed-wire fence but Shantaram was not fully satisfied with his answer.

After an early dinner, Shantaram had lit the lamp in the station office and planned to sleep there. The glass-paned door was closed but not bolted. He felt strange because a sound made him look up at that door. He was surprised to see a huge lion against the glass. He was frightened, he sat in his chair, he didn't had any weapon for his protection except a wooden ruler on

the table. The lion stood silently. For few minutes, Shamfar and the lion had been staring each other.

The lion was seeing ~~that~~ Shamfar with a curious expression. Then, the lion went away like he was disinterested to see him ~~on~~ any longer. After that, Shamfar suddenly bolted the door and realised the significance of the barbed-wire fence around the deserted station.
