Subject - Extra classes for math

Sir

With due respect I would like to state that I am a student of class VI section B. I would like to request that please arrange some extra classes of math. As you know in our time table math period is only on Monday and it is only a 30 mins period. So, many students are having doubt which is not being cleared. Therefore I request for some extra math classes to be arranged.

Yours obediently  
Swarnit Nath  
class - VI B
