Narrate the autumn seasons

There are six seasons in a year. Autumn season is one of them. This season last from the month of September to November. Autumn is the season which comes after rainy season and before the pre winter season.

At the arrival of autumn season the nature becomes pure and beautiful. The cloudiness is removed from the sky. There is no dust and mud on the earth. The waters of all rivers and ponds look clean. All the people are engaged in their world. The festival like ~~the~~ Durgapuja, Deepawali comes in this season. ~~In this way~~ The pleasant climate autumn season makes everyone dynamic.
