

HW 13.07.2021 The Cell

Review Questions
(1QA)

Q3. Briefly describe the three essential parts of a cell.

ans. i) Cell membrane - Each cell is bound by a thin membrane called cell membrane or plasma membrane. It allows only few substances to pass through, thus it is known as selective permeable membrane.

ii) Cytoplasm - The jelly like substance in a cell is called as cytoplasm. It consists of about 70% of water which give it fluidity.

iii) Nucleus - The nucleus is the main organelle of a cell which regulates all the activities of the cell.
