Subject: Request for arrangement of extra classes in Maths

Sir

With due respect, I would like to state that I am a student of VI-B. As, my half-yearly exams are coming up in the next month, I want to do better in Maths. Some of the concepts that I am not able to understand and do well cannot be covered within 1 hr of a math class. I therefore, request and hope that soon you will arrange an extra math class for me and I oblige thereby.

Yours obediently,
Tanisha Mohapatra
VI-B
