TELEVISION

'Television' is a word that we hear everywhere especially in this Covid Period. Due to Covid everyone is drunk for television. Some people consider it as useful while some people as ~~use~~ useless. As per my opinion we shouldn't watch telly as it's very bad for our eyes and brain. It will affect us as we will become fat, lazy and we will always feel dizzy. It's better to avoid telly and ~~avoid~~ to read newspaper.
