

14.11

The weather of a stormy day chapter was ~~very~~ extremely bad and terrible. The navigator and his master faced problems in crossing the road. The bridge was also broken in this bad ~~at~~ weather and they can't pass the bridge too. It was difficult for them as due to the powerful wind the trees also fell and blocked the road. The water was up to navigator knees. The branches of the trees were swaying about like twigs, and the crushing sound was terrible. All around there was cracking ~~sound~~, crashing down, tearing and spitting down sound. The weather was very scary.
