

Therefore, it represents the number 52. Similarly, in abacus (b) spike T has 4 beads and O has one bead. Hence it represents 41. In abacus (c), spike T has 3 beads and O has 2 beads. Therefore, it represents 32.

**Note :** 1. Please explain to the children that an abacus has spikes to represent numbers even beyond hundreds.  
 2. Each spike in an abacus can have **maximum** 9 beads only.  
 We know that one more than 9 is 10 and it is represented by 1 bead in spike T.  
 Also, one more than 99 is 100 and it is represented by 1 bead in spike H.

### Exercise

Write the number that each abacus represents.

1 4 = 14

4 1 = 41

7 0 = 70

3 2 = 32

7 3 = 73

5 4 = 54

4 2 3 = 423

5 5 3 = 553

2 3 3 = 233
