Bhubaneswar

Sub: - [Reporting of Incident happened
on 16.05.2022 at school premises]

Dear Sir,

A very Goodday!

At the outset I would like to draw your kind attention of the incident happened on 16.05.2022 at your school premises.

On 16.05.2022 while my son Naitik Nanda Pattanai, std-VI, Sec-D of your school was attending his regular classes, it was around completion of physics class & starting of SST classes, when there was some delay in coming of the SST teacher, at that transition period one boy named Sidhartha of the same class came to my son (Naitik) and asked some irrelevant thing and slapped heavily on his left ear & his back which many persons I have witnessed with a sound which caused injury to his left ear with severe pain.

After the class was over when some of the parents informed me at about 9-9.15am that your son is crying in front of the school & asking for you to come, then I immediately called the class teacher Ms. Rupalata Kan to see to it until I reached the school. Upon reaching the school at around 9.20am I found my son still crying with severe pain & surrounded by some of his parents but it was astonished that such incident was not

[Cont. - Page-1]

noticed by any of your staff members even the boy came with crying from the class to the school Main gate, which posed a question mark on the safety & security of child in your premises.

When I informed the issue to your security head & class teacher & requested her to take appropriate disciplinary action under the law against the boy & Council his parents properly informed to avoid such incidents in future. Further took my son to King Bhutanesea for medical attention.

Now my question is how such type of incidents can happen in a school like yours, which pose a question mark on the operation of the school?

A) What steps you are taking to safeguard the safety & protection of child in your premises?

B) Why the classes are unattended unless the next teacher comes to attend?

C) What steps you would suggest to counter such incidents which could have made some permanent or irreparable loss to the child as well.

D) What disciplinary action under the provision of law you are taking against the boy & Council his parents to stop such incidents & ensure safety & security of children in general kindly let me know?

E) My son is apprehending & further such thing by this boy & reluctant to attend classes today which I have in discussion with class teacher sending him for proper investigation at your end.

Thanking You,

Debasis Pattanaiik
P.O. Naitik Nandan Pattanaiik
Std-VI, Sec-1 P-2 of 2
