Allegation on my ward that he violated hostel rules and was found engaging in indiscipline activities.

Respected sir

With humble submission, I acknowledge your message, but certain things have been revolving around my mind which I want to bring forth as a concern towards my ward.

- (1) If the incident happened at 3:30 am why, the floor warden/admin staff didn't stop them from going to 3rd floor from 2nd floor.
- (2) If a screaming is heard at such time it's a natural tendency for anyone to panic & go to the concerned spot in speculation of some danger.
- (3) Why the incident was not intimated to

(3) Why the incident was not intimated to the parents immediately.(Monday morning)

(4)As it is informed by my ward they were just witnessing the incident passively & were in no way involved in it & in this regard the CCTV footage should be checked.

(5) Please,check the credentials of your recruited staff who use filthy words in front of teenage childrens which can damage the value inculcated by the child.

(6) My child has gone there with high ambitions & aspiration, such incidents can hamper his academics & overall development.So,I would humbly request you to find the causes behind this & not just take a one sided decision.I am ready to produce any undertaking behalf of my ward if required.

Regards

Anupa
